

Sharing Photos

Ya wanna see my pics?

Presentation to OPCUG
Lynda Buske

Ways to share photos

- Emailing reduced photos

- Link to on-line storage

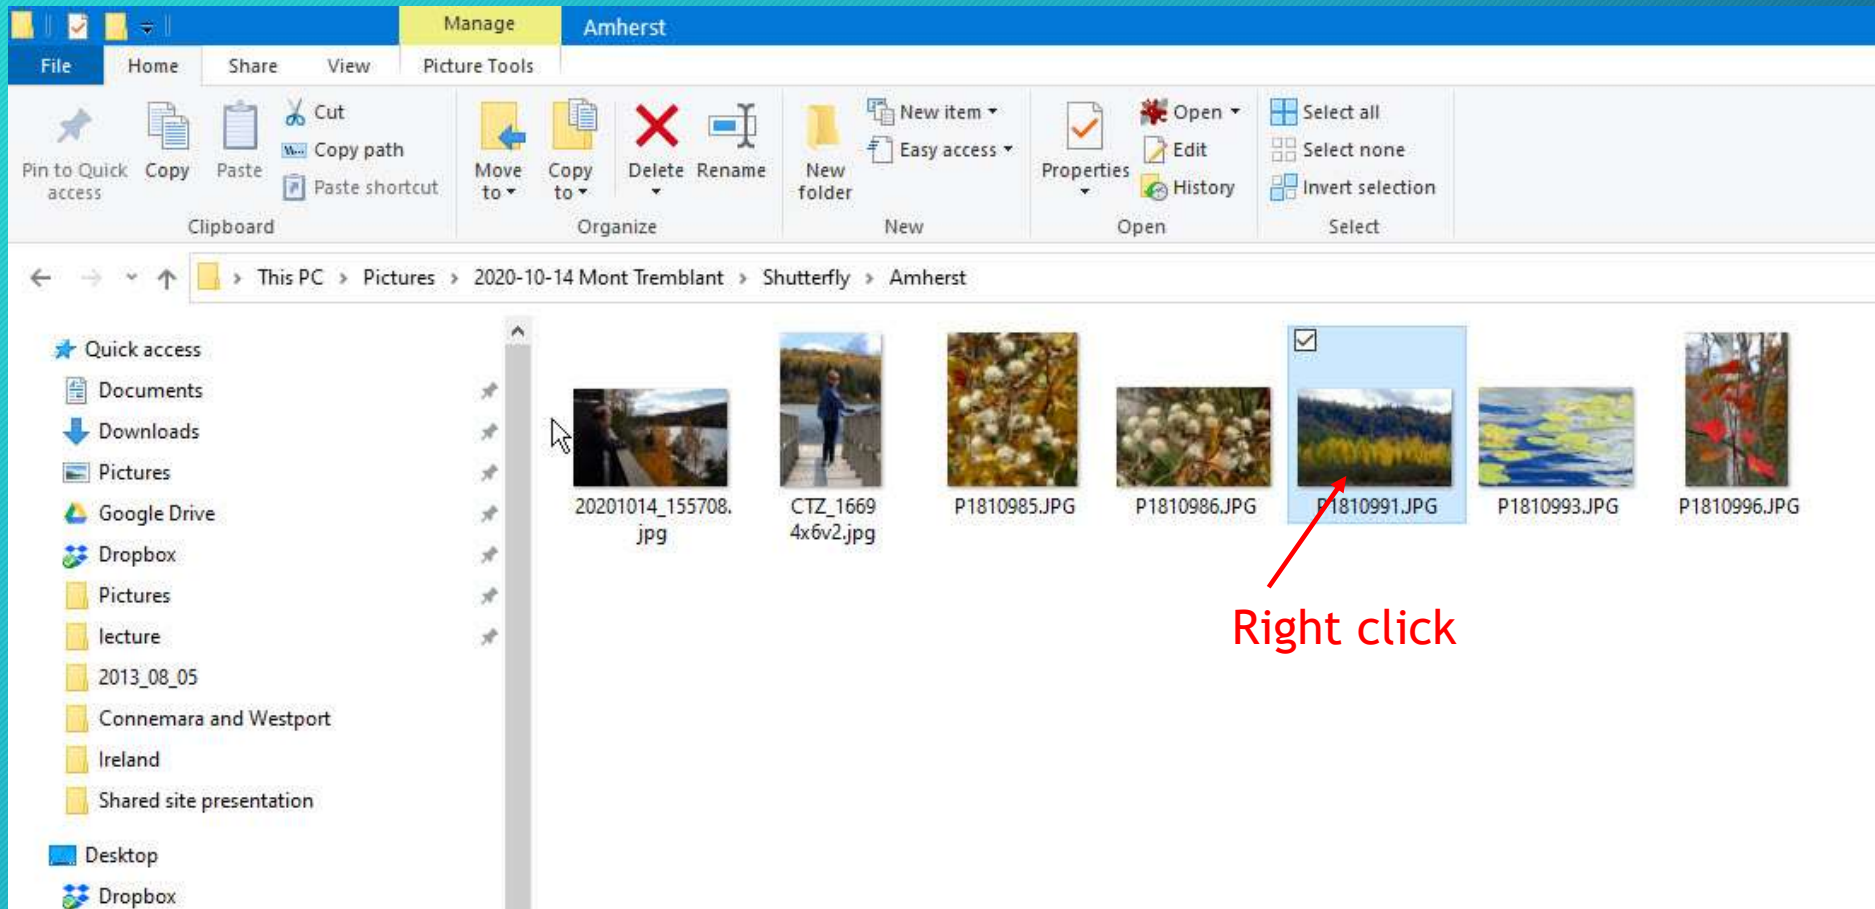

- Link to personal website you have created

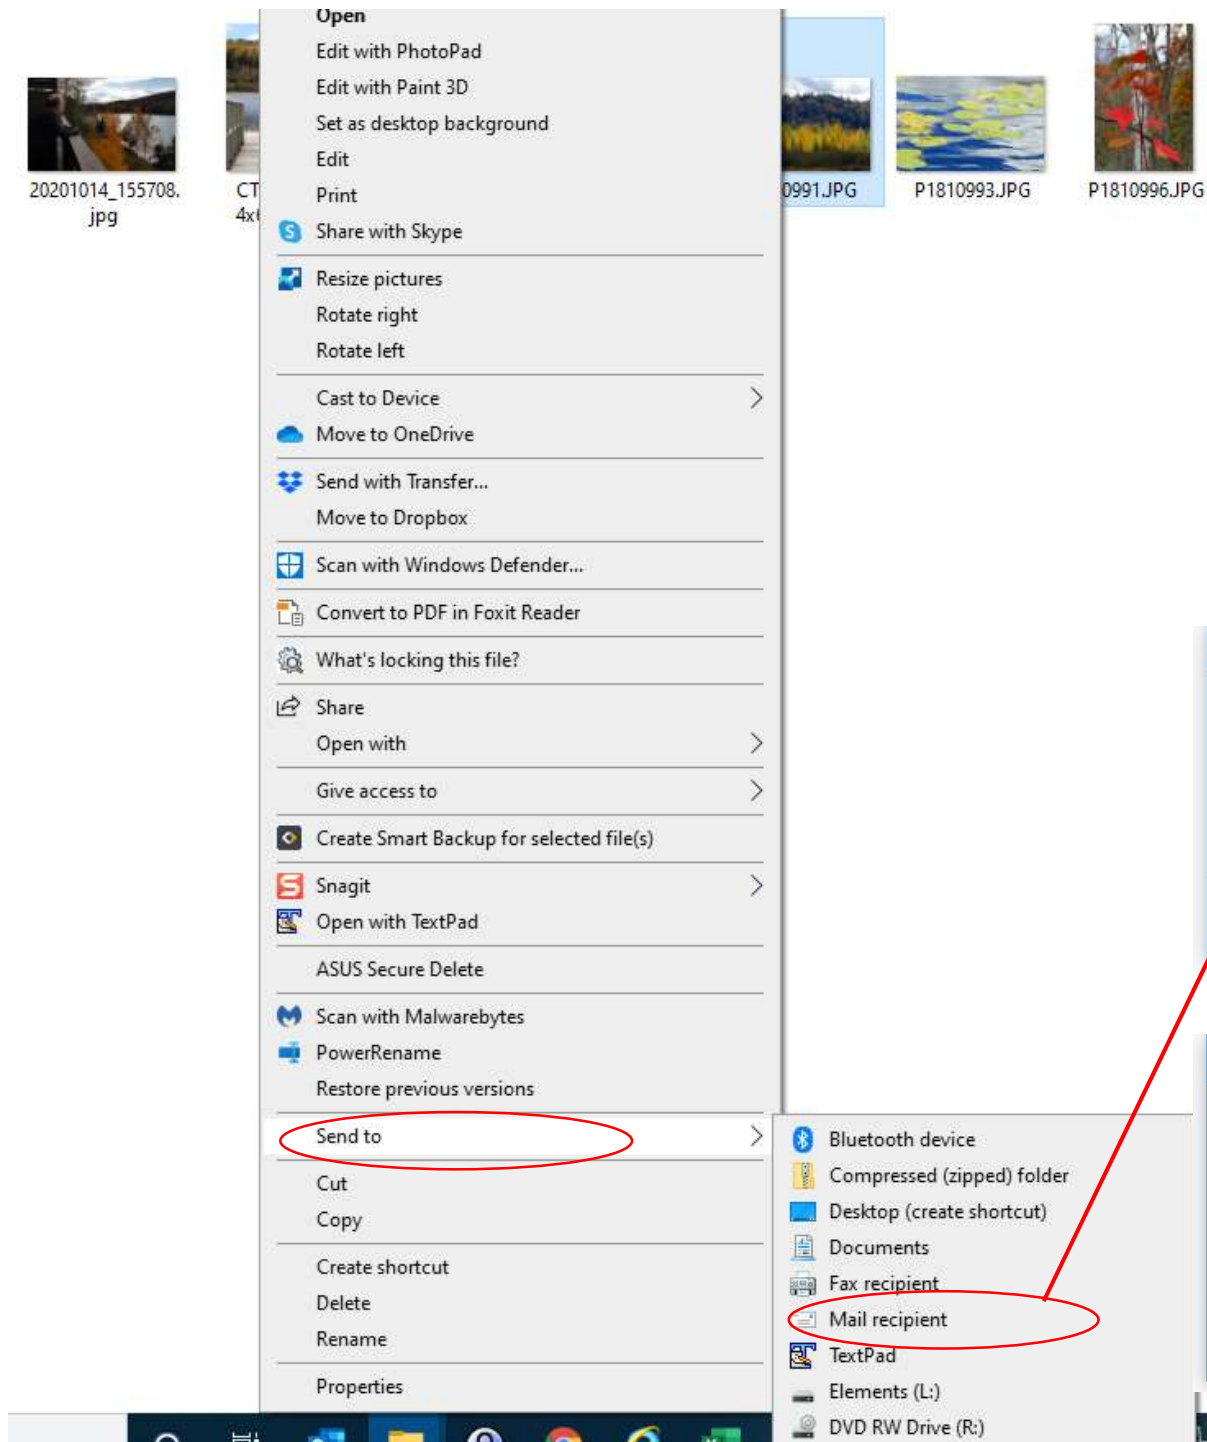

- Link to personal area of hosted site

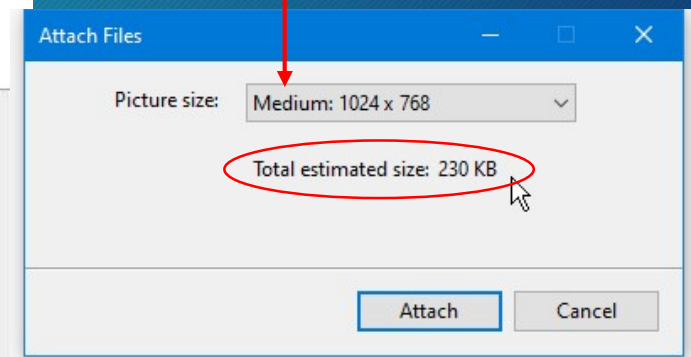

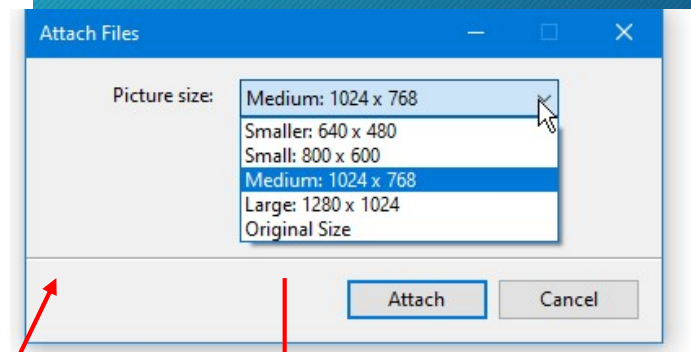

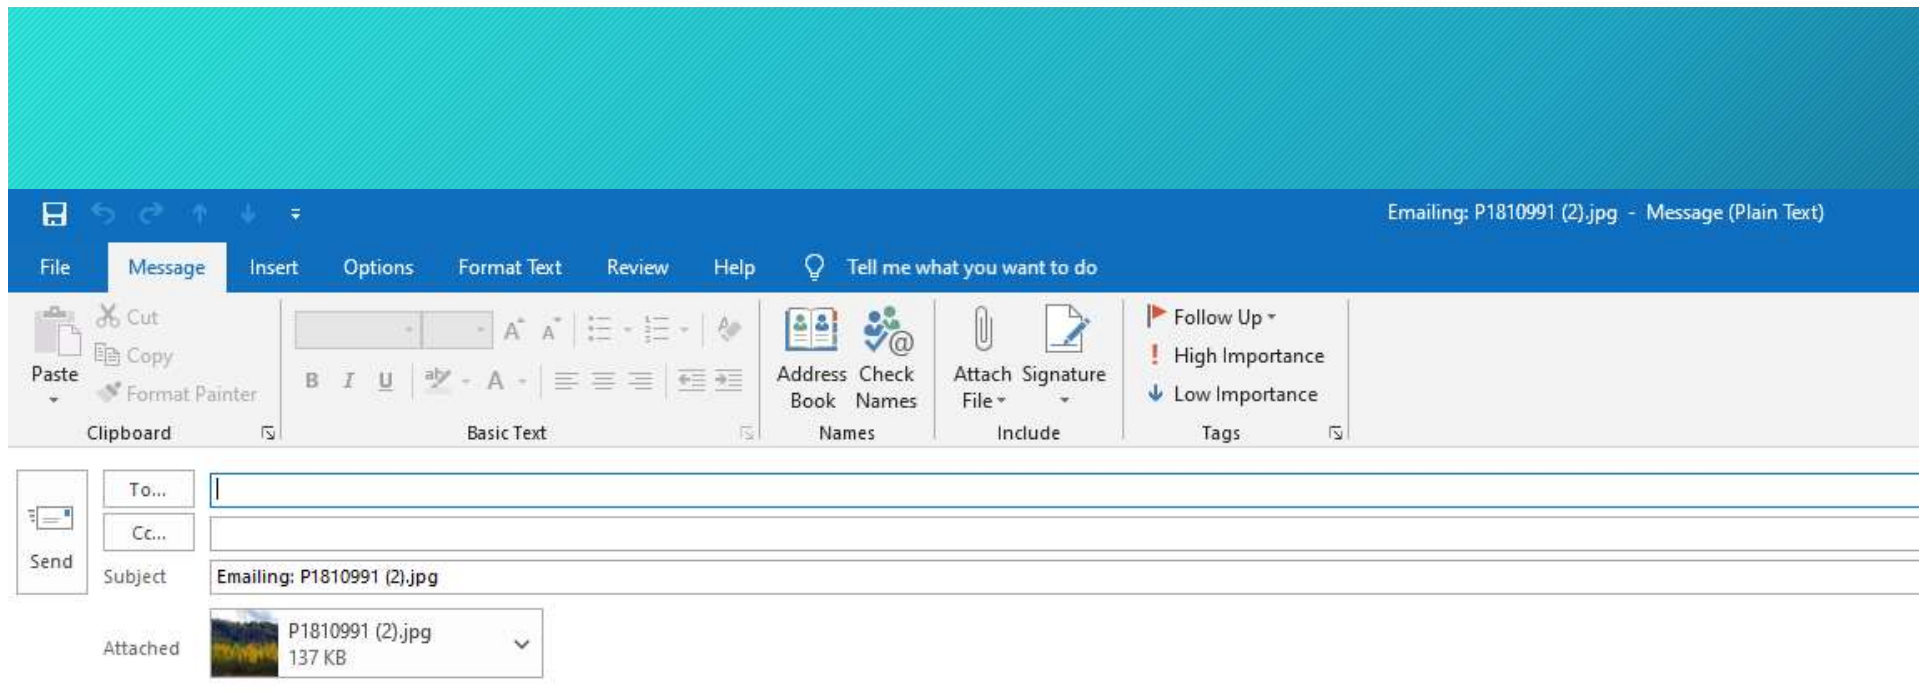

Emailing reduced photos if you have a mail program on your computer

Can resize multiple photos in one operation (ie batch)

Your message is ready to be sent with the following file or link attachments:

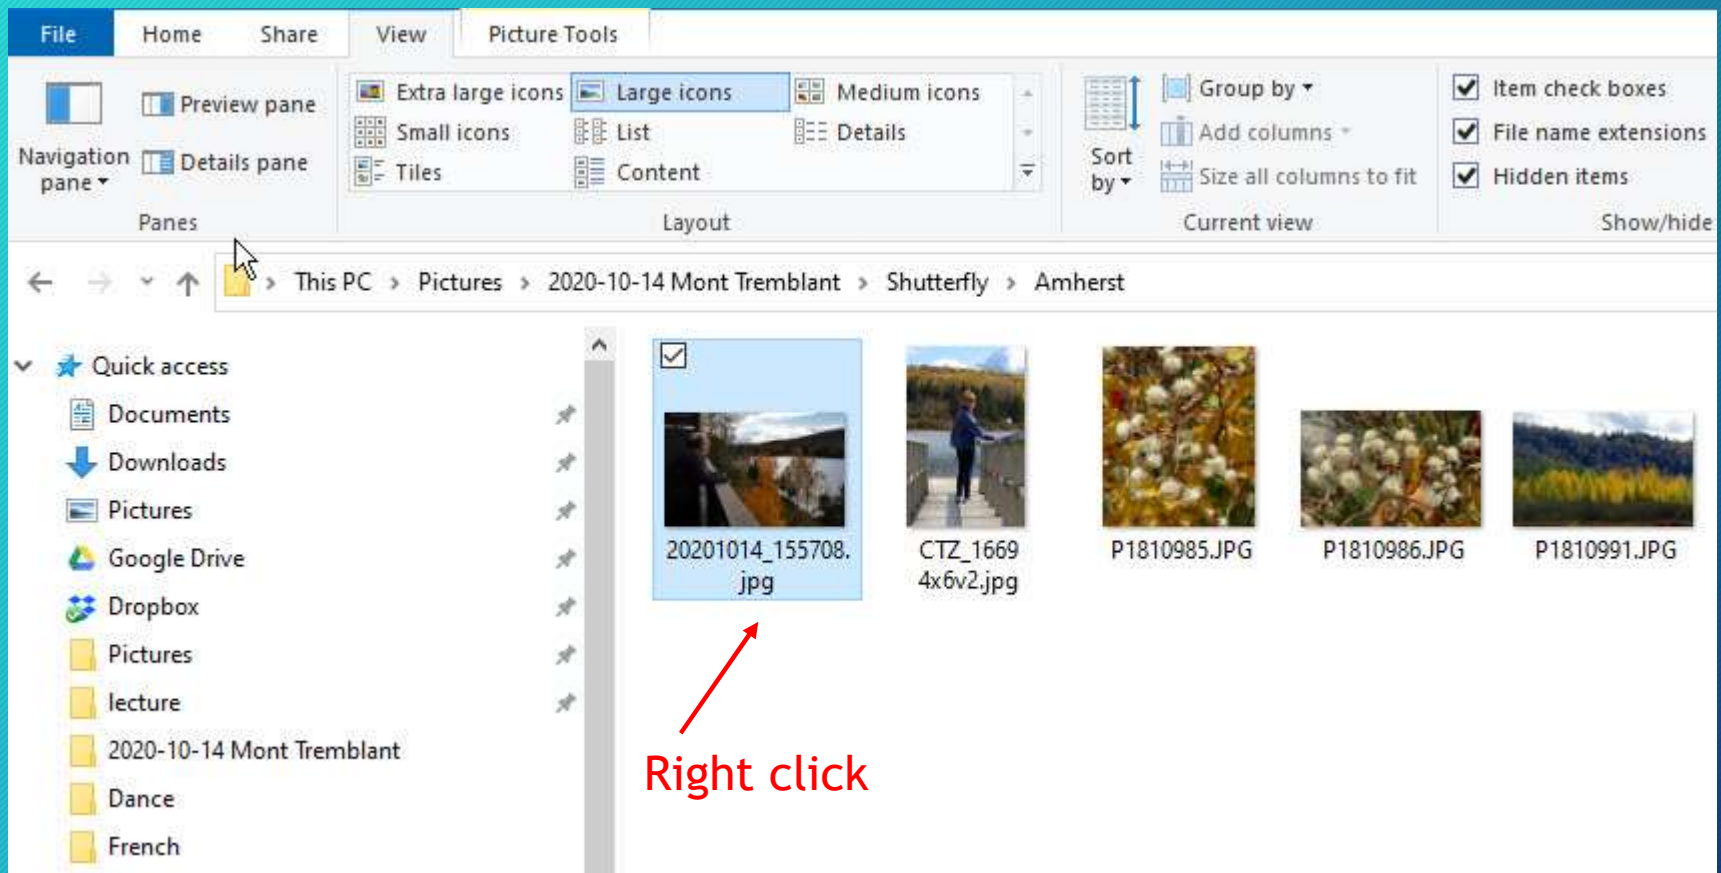

P1810991 (2).jpg

Note: To protect against computer viruses, e-mail programs may prevent sending or receiving certain types of file attachments.

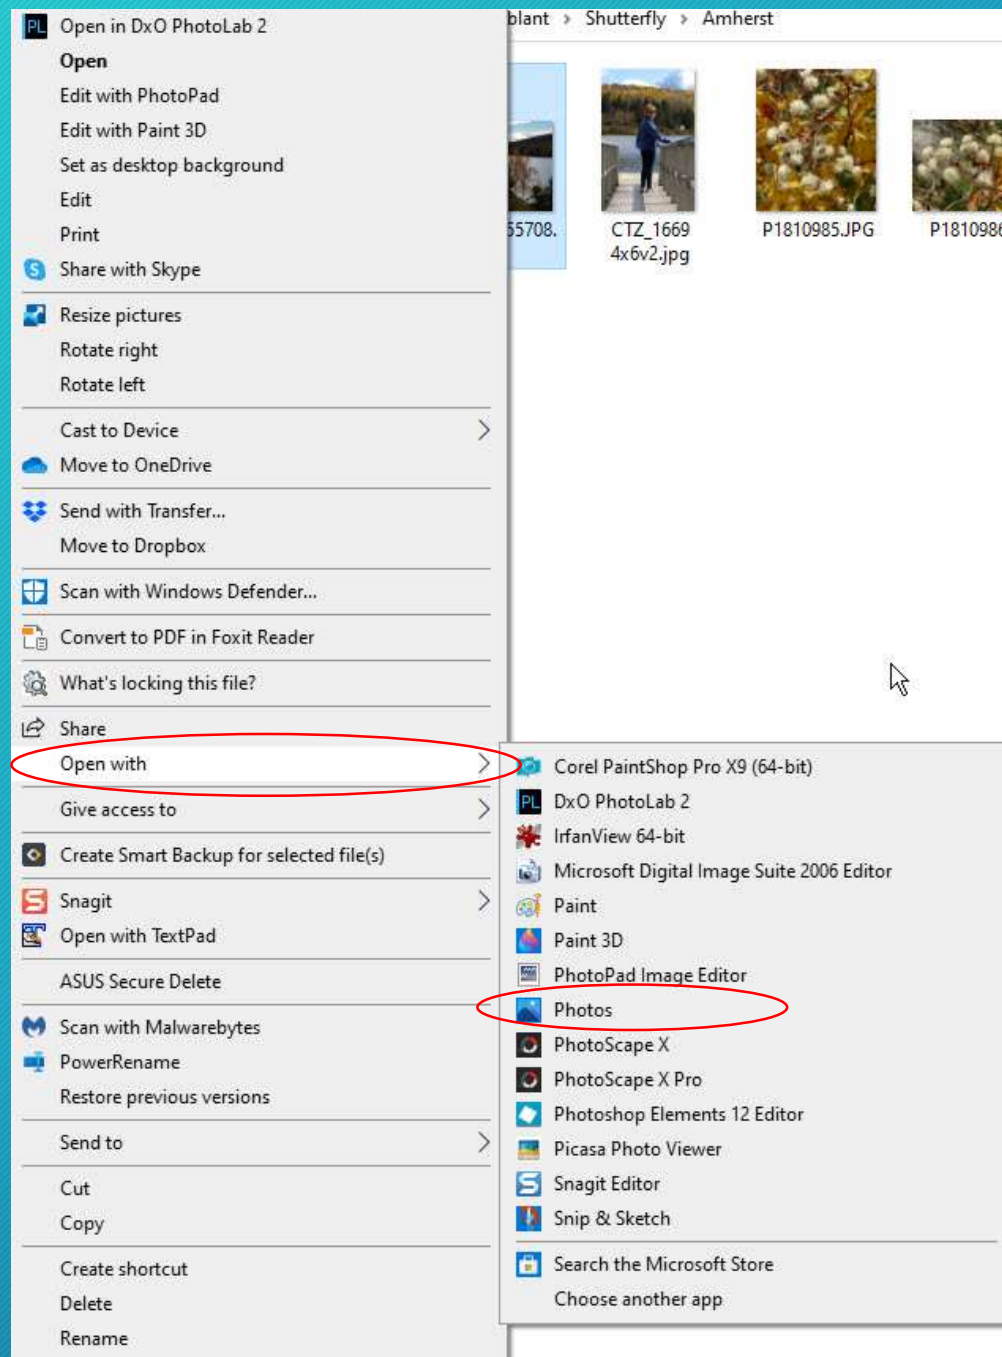

Note:

- Will not work if you only use only web based email. It requires client software such as Office's version of Outlook, Thunderbird, Mailspring, etc.
- You cannot customize the size.
- Does not save a copy of your reduced photo.

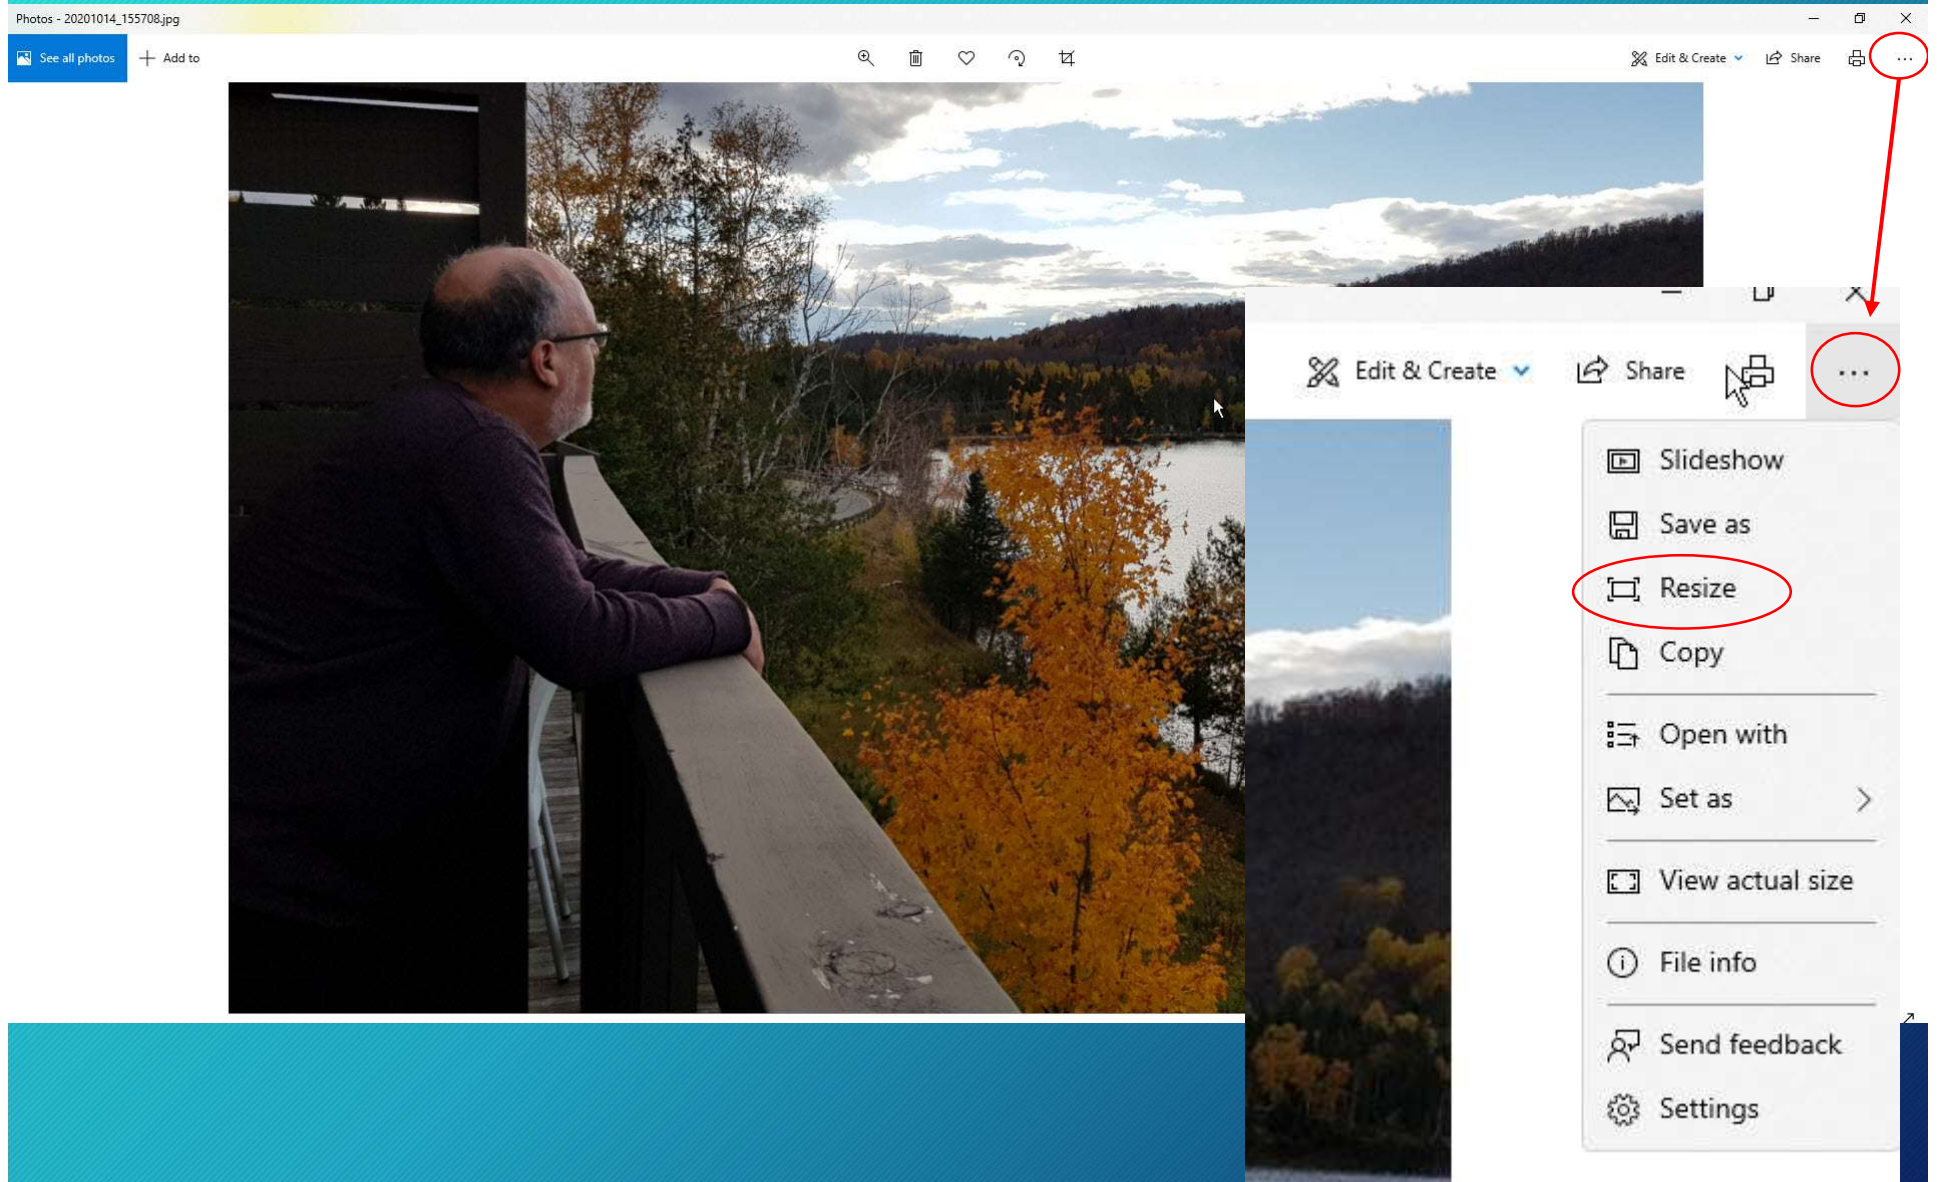

Emailing reduced photos if using web-based email

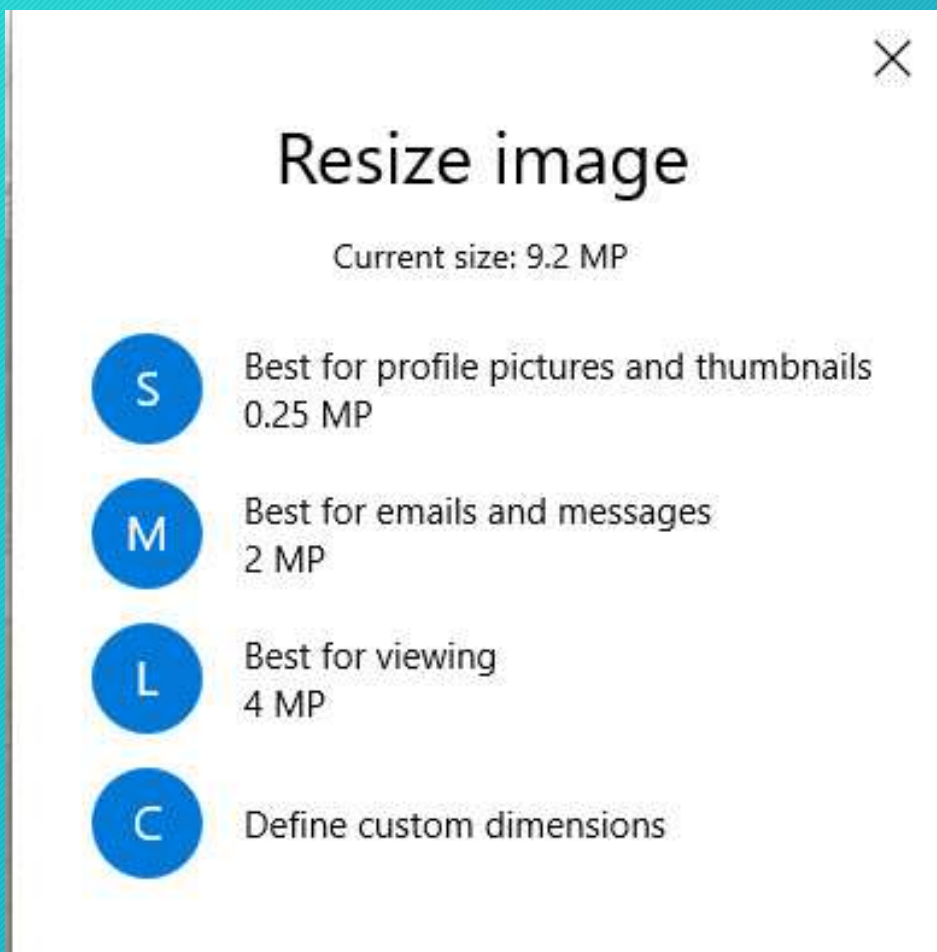

Windows Photos

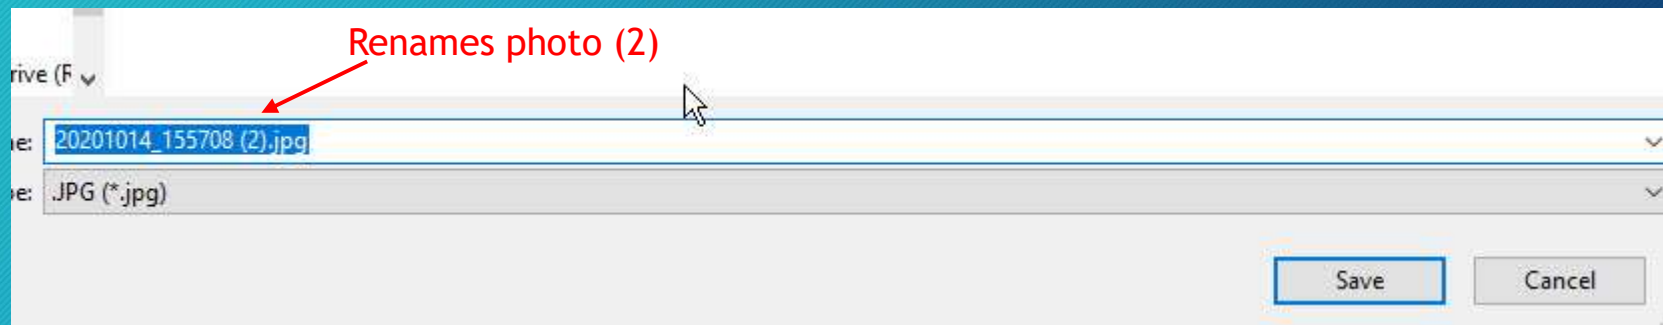

Windows Photos (Editor)

No batch sizing
or saving

Using Image Resizer

- Image Resizer is one of the Microsoft PowerToys
- PowerToys can be downloaded at [docs.Microsoft.com](https://docs.microsoft.com).
- Get instructional slides from March 3rd Q&A https://opcug.ca/qa_recordings/20210303_PowerPoint.pdf

Opening with Image Resizer

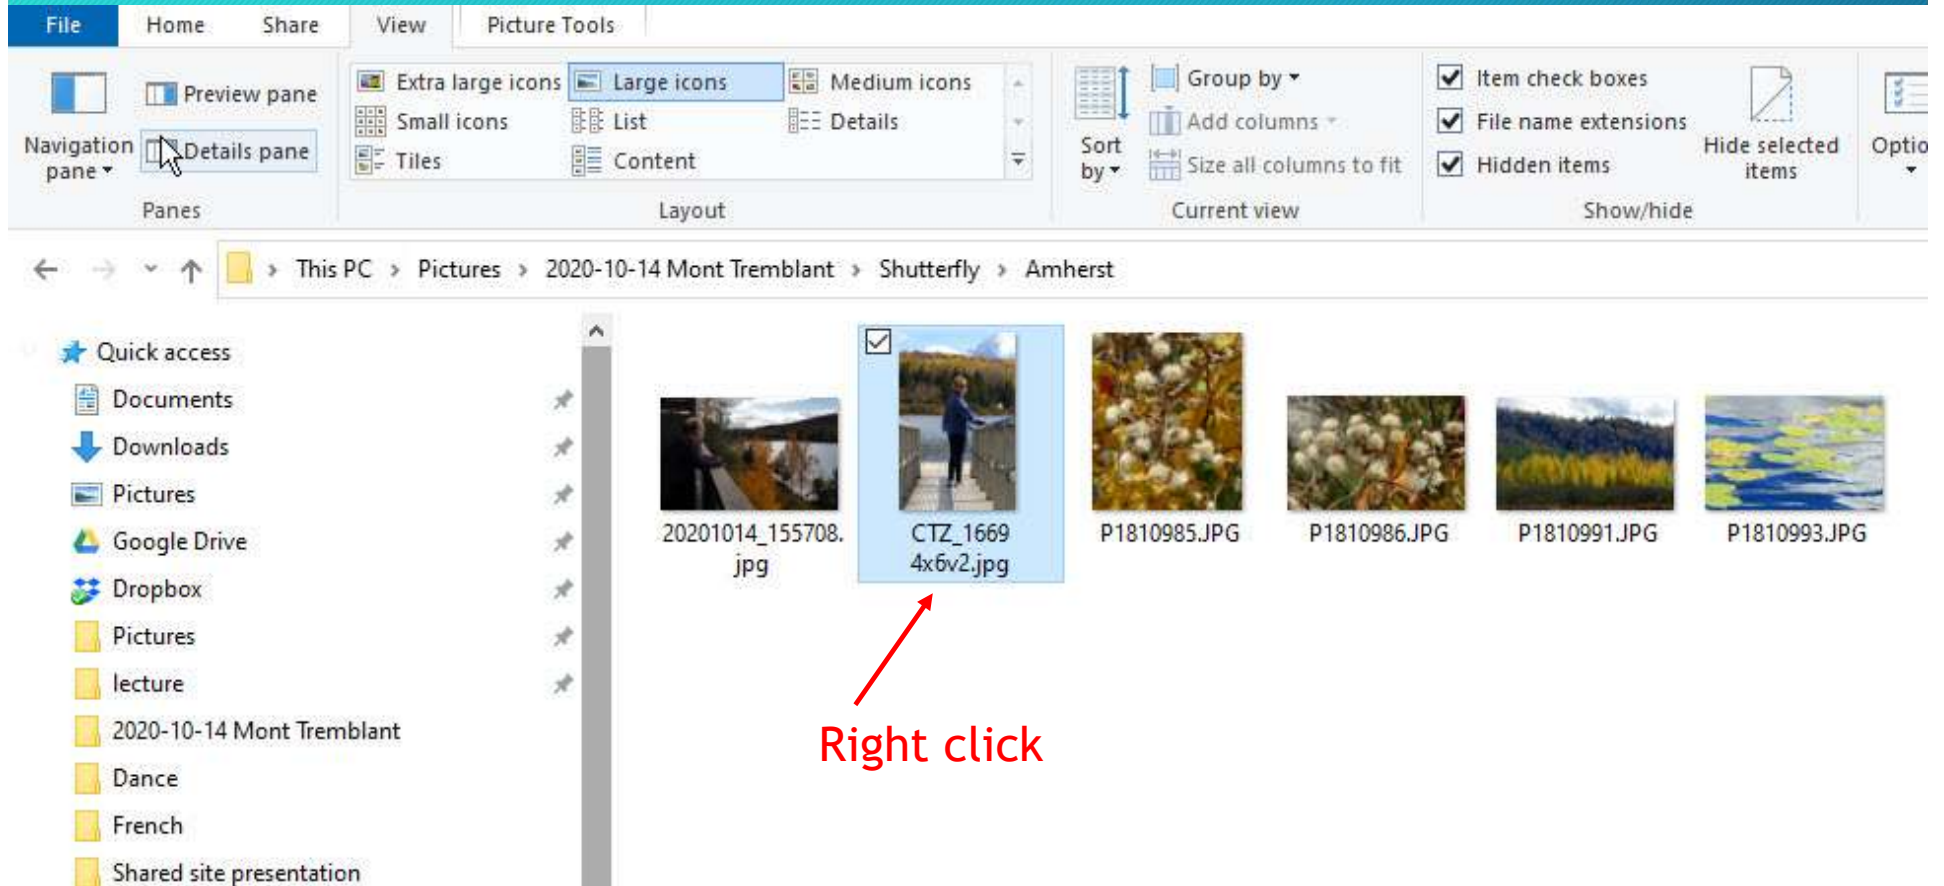

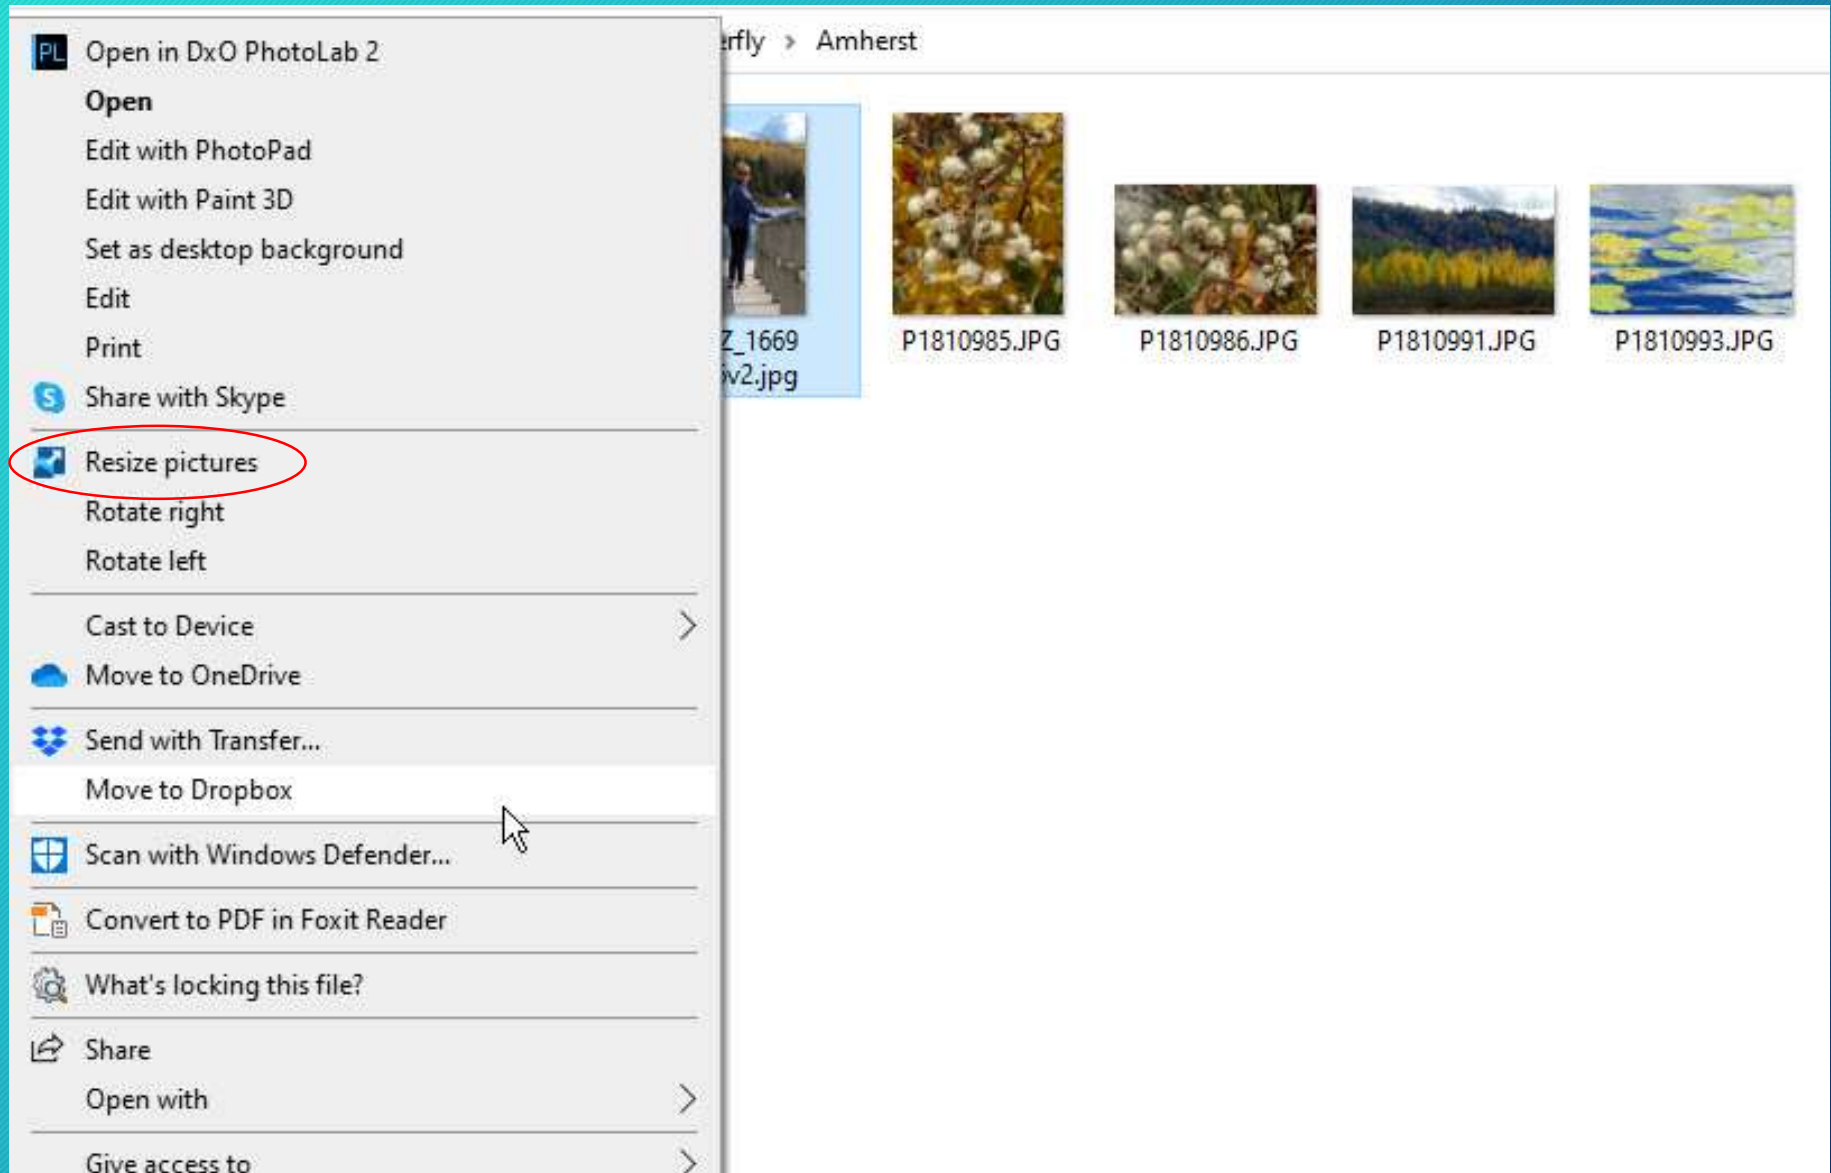

Image Resizer

Resizing with Image Resizer

Image Resizer

Select a size

☒ **Small** (fits within 854 × 480 pixels)

☐ **Medium** (fits within 1366 × 768 pixels)

☐ **Large** (fits within 1920 × 1080 pixels)

☐ **Phone** (fits within 320 × 568 pixels)

☐ **Custom** Fit 8058 × 4564 Pixels

☒ Make pictures smaller but not larger

☐ Resize the original pictures (don't create copies)

☒ Ignore the orientation of pictures

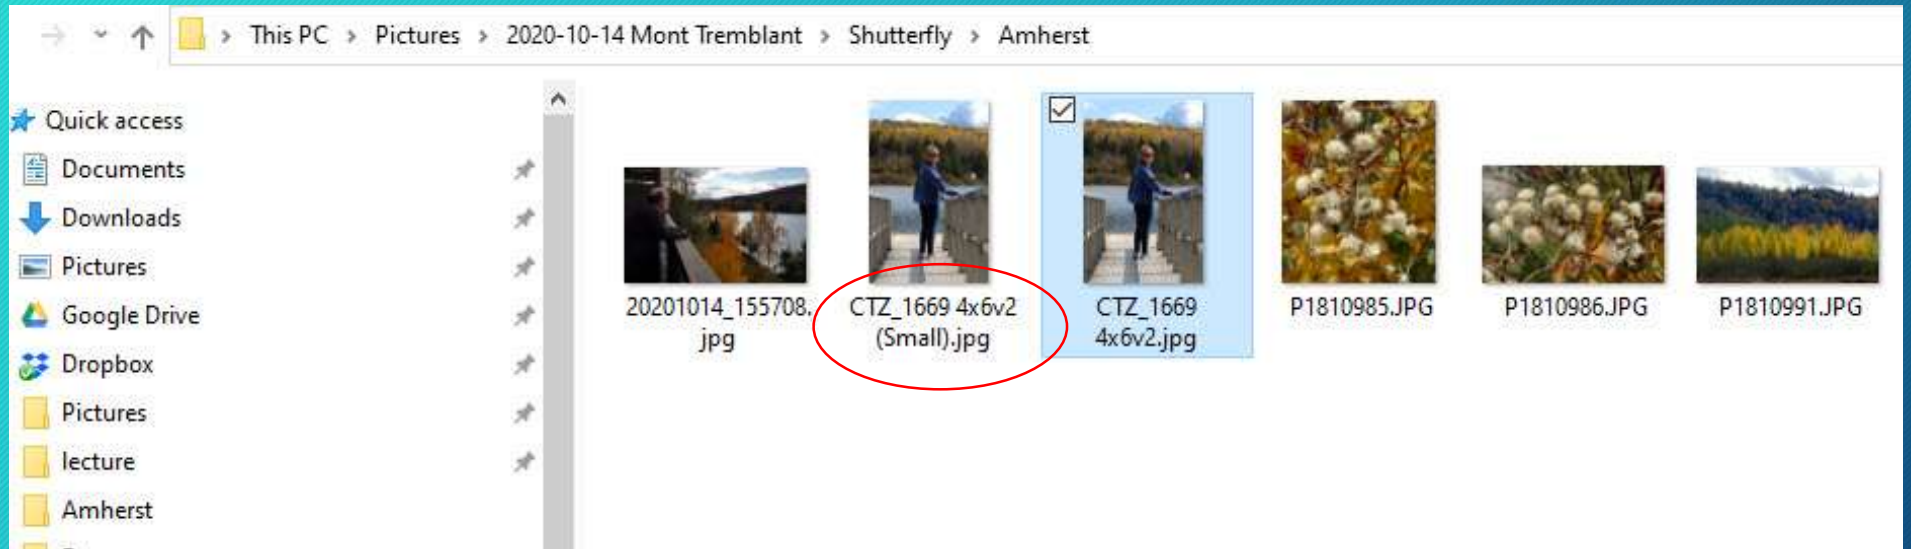

Resize Cancel

good for email
laptop screen
high def screen

Sizes small,
med, large
can be
customized

Saving with Image Resizer

Automatically renamed to include the size. No need to save in a separate folder!
Can resize multiple photos in one operation (i.e. batch)

Summary

- If you have client software for mail such as Office's version of Outlook or Thunderbird you can resize and send from Windows Explorer.
- If you have web based mail only, use Windows Photos to resize before attaching.
- If you download Microsoft PowerToys, you have Image Resizer to use in Windows Explorer.

Storing and sharing photos on the Cloud

Lots of options for on-line storage. All will give some free space...

- Drop box - 2 GB with synching

- Google Drive - 15 GB with synching

OneDrive

- Microsoft OneDrive - 5 GB with synching

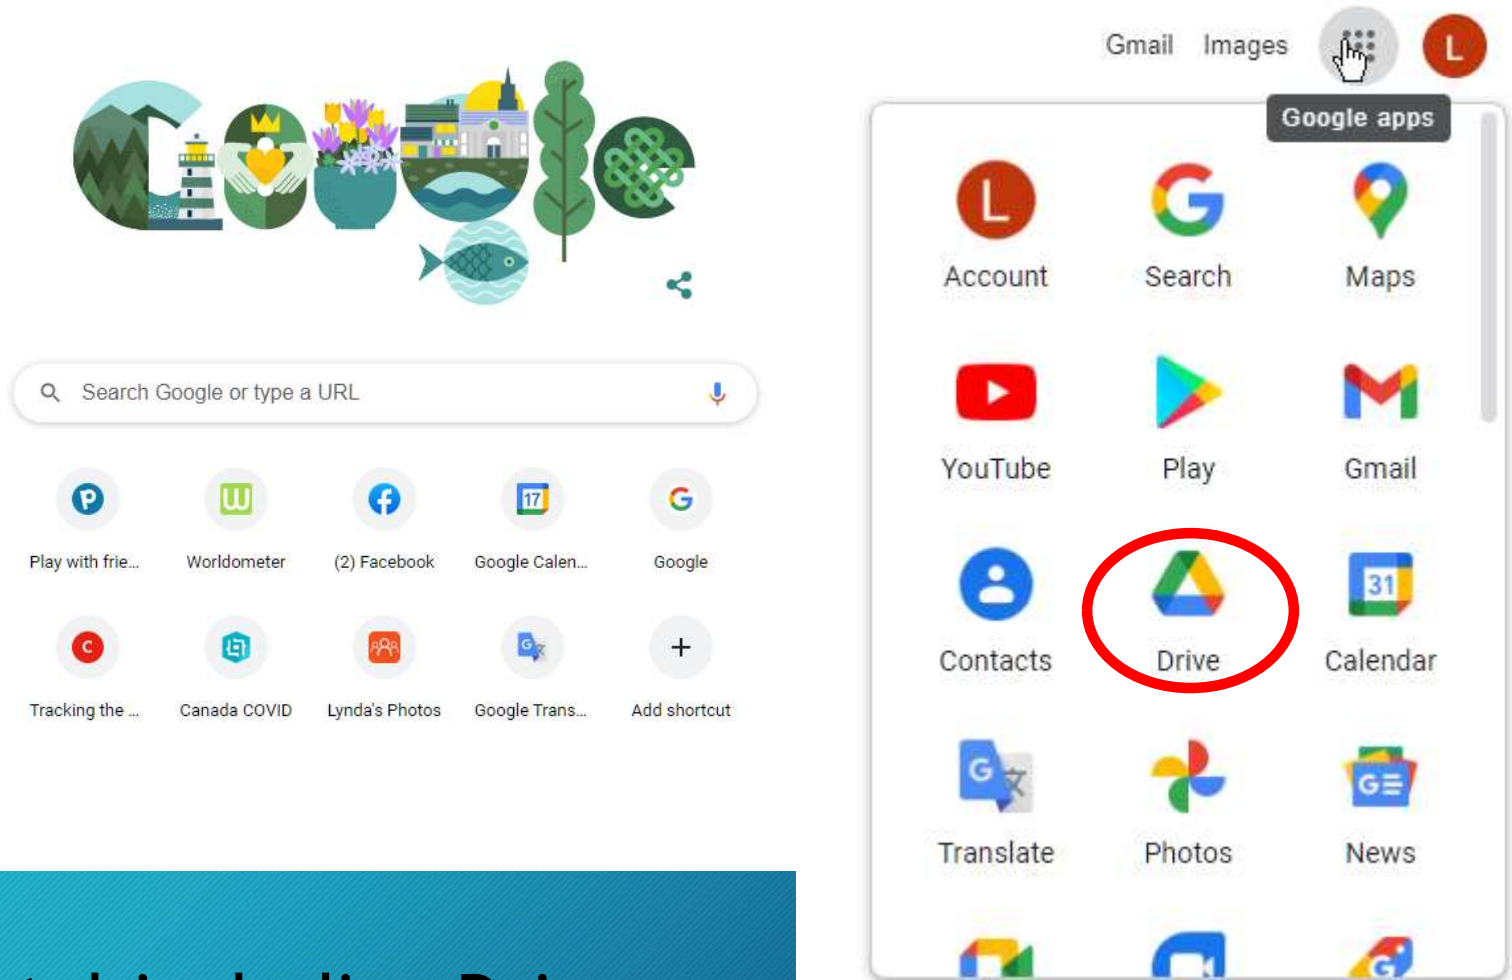

- box - 10 GB

- Degoo - 100 GB (must use monthly, no synching)

How to share on Google Drive

15 GB total including Drive,
Gmail, Photos, calendar, etc.

Sharing through a website

- Link to personal website you have created
https://opcug.ca/presentations/20210113-make_blog_opcug.pdf

- Link to personal area of hosted site

- Facebook

- Instagram

- Flickr

- Shutterfly

- SmugMug

Why Shutterfly?

- Unlimited free storage
- Customizable personal website
- Ability to post large albums
- Easy to see all albums
- Receive comments via email
- Access to custom products using your photos

Downsides

- Photos have slightly reduced resolution. Don't use for backup storage!
- There are ads on the side (usually static) when you open an album.
- You will receive regular emails about specials.
- American prices, no free shipping
