Vibe Coding Competition

- The use of vibe coding will be on the honour system
- For those providing entries to the competition, there will be two prizes offered:
 1. The most useful product
 2. The best presentation of the development process *

** The project doesn't have to be successful for this portion of the competition - stories of trials and tribulations, and even abysmal failure will be happily accepted*

Scheduled for October 14th

Last chance to enter tonight !!!

Best desktop PC computer deals for September 2026

Sam Singleton — Read time: 12 minutes

At a glance

Top gaming desktop computer deals

- [ABS Cyclone Aqua](#)—\$899 (10% off on Walmart)
- [iBuyPower Element SE](#)—\$1,130 (13% off on BestBuy)
- [Asus ROG G700](#)—\$1,850 (8% off on Amazon)

Top mini PC deals

100%10:58 AM

[ABS Cyclone Aqua](#), Core 5 120/RTX 5060/16GB RAM/1TB SSD—\$899 (10% off on Walmart)

At just \$899, this [ABS Cyclone Aqua](#) is a really interesting option this week if you have a tight budget, but still want a gaming PC. The Core 5 120 isn't a strong gaming CPU, but depending on the motherboard, you can likely upgrade to another, more powerful 14th-gen Intel processor in the future for relatively cheap. Regardless, the included CPU and RTX 5060 combo should handle most games at 1080p and maybe even higher with DLSS doing a little extra

Time zone converter

- I've always been challenged with time zones
 - am I earlier or later?
 - when does Daylight Saving Time begin?
 - which way to turn clock twice a year?
 - how many hours ahead
 - ...or is it behind?
 - ...is London, England?
 - ...on March 20, 2027?

Time zones in Canada are getting complicated

- <https://www.cbc.ca/news/canada/time-zone-canada-map-9.7349663>

Share

Long-standing oddities

- Saskatchewan stays on Central Standard Time all year
 - beginning in 1966
 - except for Lloydminster which used Mountain Standard Time
 - in the winter
- Yukon stays on Mountain Standard Time all year
 - began in 2020
- Some BC communities stay on standard time year-round
- Eastern Quebec communities use Atlantic Standard Time year-round, ignoring DST
- Lots more...

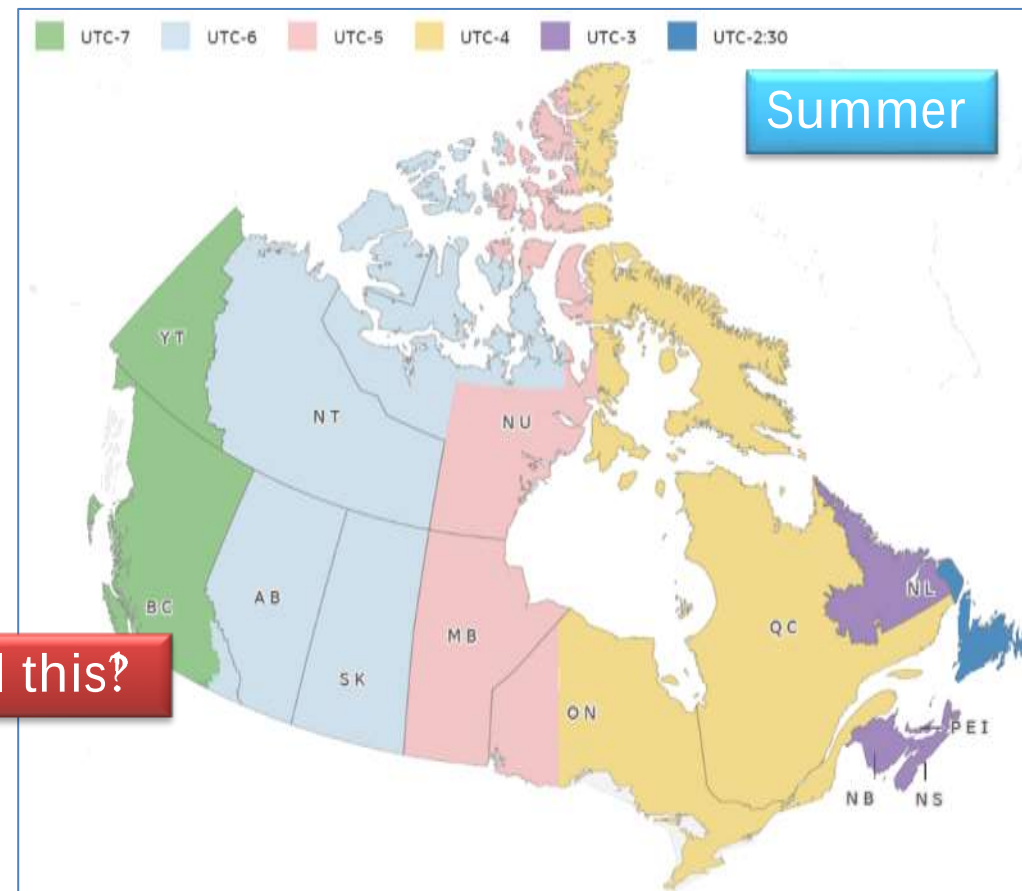

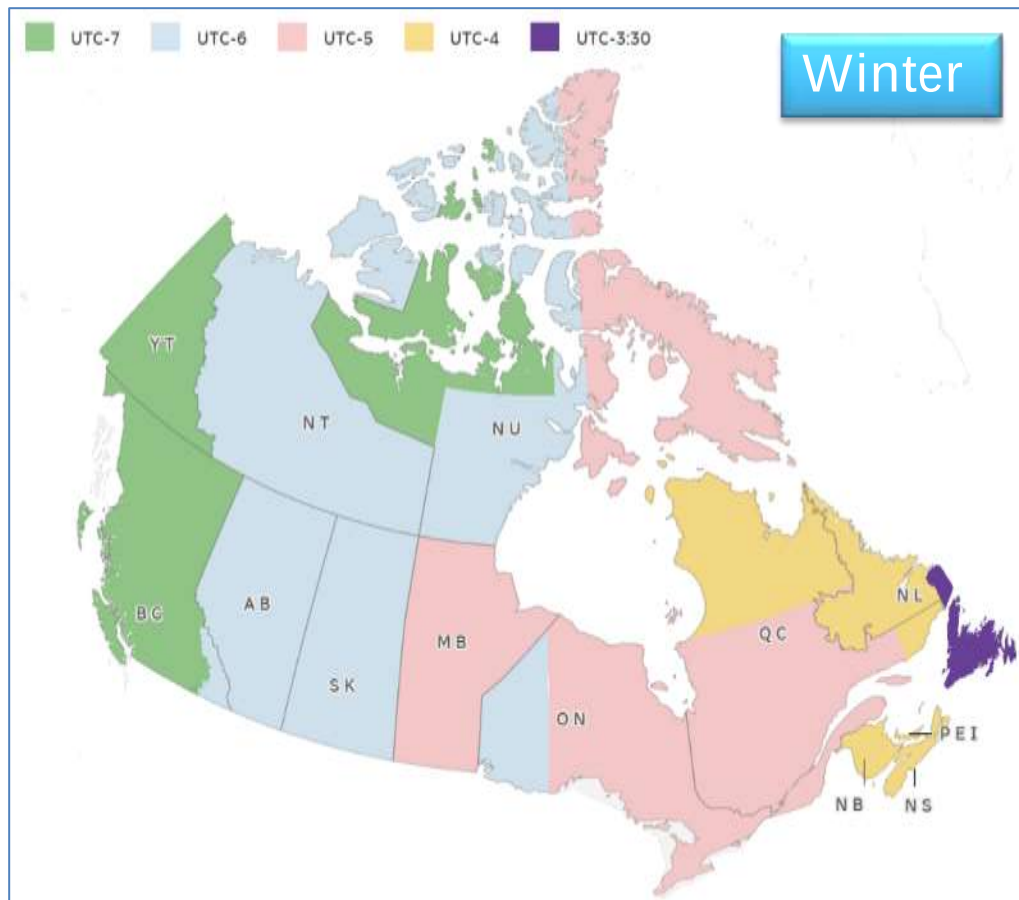

Share

And then provinces went nuts

- Flurry of changes in 2026. Some examples:
 - Manitoba now sticking with daylight time year-round
 - part of NW Ontario, including Kenora, Ontario
 - shares time zone with Manitoba
 - it will be alone in its own time zone during the winter
 - one hour behind Thunder Bay to the east
 - also one hour behind Winnipeg to the west
 - Alberta moving to permanent *Alberta Time*
 - matching Saskatchewan's permanent Central Standard Time
 - part of Nunavik north of Quebec on permanent daylight time
- So you have to remember which areas
 - stay on standard time year-round
 - stay on daylight time year-round
 - change time twice a year
- Are things stable?
 - not by a long shot
 - Ontario said they will change if Quebec & New York change

Share

Time zones now

Do you want to remember all this?

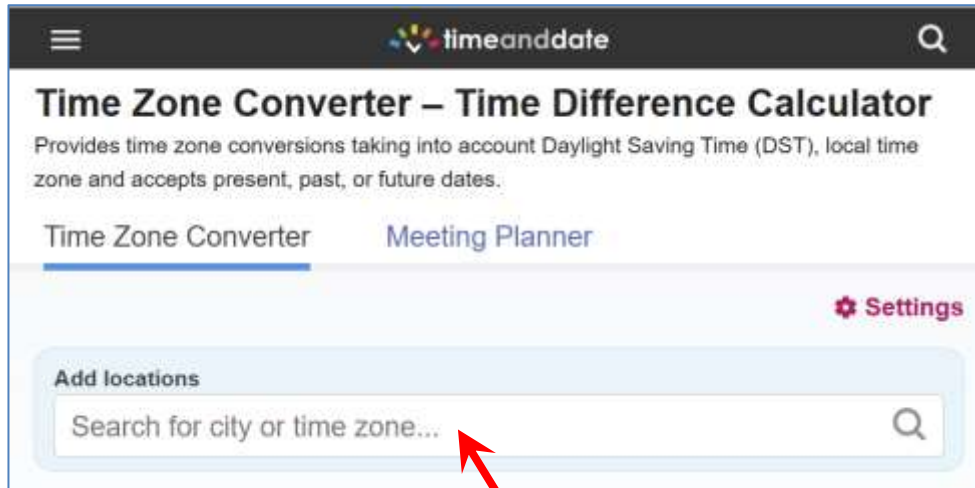

Share

I can't deal with it all

- At least in Canada
 - all areas *that do change clock twice a year*, do so on same date
 - first Sunday in November: Sunday, Nov 1, 2026 at 2:00 AM
- Other areas of the world change time on different dates
 - EU
 - last Sunday in October: Sunday, Oct 25, 2026 at 1:00 AM
 - UK
 - last Sunday in October: Sunday, Oct 25, 2026 at 2:00 AM
 - Australia
 - first Sunday in October: Sunday, Oct 4, 2026 at 2:00 AM
 - except (*of course*) Queensland, Western Australia, Northern Territory, Christmas Island, & Cocos Islands which stay on standard time

Time Zone Converter to the rescue!

The screenshot shows the top of the 'Time Zone Converter – Time Difference Calculator' website. It includes a navigation bar with a menu icon, the 'timeanddate' logo, and a search icon. Below the header, there's a description of the tool and two tabs: 'Time Zone Converter' (active) and 'Meeting Planner'. A 'Settings' gear icon is in the top right. The main section is titled 'Add locations' and contains a search input field with the placeholder text 'Search for city or time zone...'. A red arrow points from the 'Enter a location' button to this search field.

Enter a location

Click from list of matches

This screenshot shows the search results for the input 'Ot'. The results are listed in a table with columns for the city name, the region/country, and a flag icon. The first result, 'Ottawa Ontario - Canada', is highlighted with a red box. A red arrow points from the 'Click from list of matches' button to this highlighted result.

City	Region/Country	Flag
Ottawa	Ontario - Canada	🇨🇦
Christchurch	Canterbury - New Zealand	🇳🇿
Dunedin	Otago - New Zealand	🇳🇿
Kotzebue		🇺🇸

The screenshot shows the 'Time Zone Converter – Time Difference Calculator' page. It features a search bar for locations, a list of selected locations (Ottawa, London, Victoria, Sydney) with their respective times, and a timeline at the bottom for navigating between days. Red boxes and arrows highlight key interactive elements: the date 'Wed, Oct 28, 2026' for London, the time '9:14 pm' for London, the 'Current Time' button, the 'Add to Calendar' button, and the back/forward navigation arrows.

Converted Times 5:14pm, Ottawa, London

Share

It works for me!

- I had to present over Zoom at Prescott (Arizona) Computer Society
 - Saturday, July 11, 2026, 1 PM their time
 - Arizona standard time year round, Ottawa daylight time
 - but I don't have to worry about that

Arizona time to present

The screenshot shows the 'Time Zone Converter' website. It has two tabs: 'Time Zone Converter' and 'Meeting Planner'. Under 'Time Zone Converter', there are two entries. The first entry is for 'Prescott, AZ, USA' with the time zone 'MST (UTC -7)'. The date is 'Sat, Jul 11, 2026' and the time is '1:00 pm'. The second entry is for 'Ottawa, Canada' with the time zone 'EDT (UTC -4) 3 hour(s) ahead'. The date is 'Sat, Jul 11, 2026' and the time is '4:00 pm'. At the bottom, there are buttons for '<< Current Time >>', 'Add to Calendar', and 'Copy / Export'.

Ottawa time to present

Created .ics file

- imported in Calendar

The screenshot shows a calendar application window titled 'Converted Times'. It displays the date 'Saturday, 11 July' and the time '4:00 - 5:00pm'. Below this, it shows the location 'Ottawa, Prescott' and the time zone conversion: 'Ottawa: Saturday, July 11, 2026 at 4:00 pm' and 'Prescott: Saturday, July 11, 2026 at 1:00 pm'. There is a link to the 'timeanddate.com' website. At the bottom, there are options for '1 day before, as email', '2 days before, as email', 'Chris Taylor', and 'Free'. A red box highlights the 'Converted 4pm, Ottawa' item in the calendar.

Created Calendar item at correct time

You really should use a Password Manager

- A member currently has a problem accessing Gmail
- There are two possible Gmail accounts
- The userid may (or may not!) include a lowercase or uppercase N
- The password is not correct
- Gmail wants to send a security code to a telephone number
- Confusion reigns!

The Solution – A Password Manager

- Protecting your passwords

<https://opcug.ca/Reviews/ProtectPasswords.html>

- Keeping Passwords Safe

<https://opcug.ca/Reviews/KeePass.htm>

- Keeping passwords safe

<https://opcug.ca/presentations/keeping-passwords-safe.pdf>

- Password Managers

https://opcug.ca/qa_recordings/20260318_PowerPoint.pdf

The Solution – A Password Manager

- Protecting your passwords

<https://opcug.ca/Reviews/ProtectPasswords.html>

- Keeping Passwords Safe

<https://opcug.ca/Reviews/KeePass.htm>

- Keeping passwords safe

<https://opcug.ca/presentations/keeping-passwords-safe.pdf>

- Password Managers

https://opcug.ca/qa_recordings/20260318_PowerPoint.pdf

Password manager

- Encrypted database
 - *password vault or password safe*
- Create entries for each site/service
 - each entry stores
 - logon names & passwords
 - related notes, and more
- Master password opens database
 - *one* password to remember
 - entries within the database are safe

Other uses

- Store any information

* Notes

- phone numbers
- expiry dates for subscriptions
- confirmation codes

- Including sensitive info

* Images

- credit card
- passport
- answers to security questions

What Puts The 'Super' In Supercomputer?

What Puts The 'Super' In Supercomputer?

Scott Manley ✓
1.87M subscribers

Subscribe

👍 2.7K

<https://www.youtube.com/watch?v=HlsyZAWnOu8>

- Scott Manley is a retired Apple software engineer
- He has a passion for space, avionics and (of course) computers
- In this link he shares his tour of the second fastest supercomputer in the world
- It was the fastest when he booked the tour but, things change.....
- El Capitan is an exaflop scale system, meaning it can run 10^{18} calculations per second
- This require tight cooperation between its thousands of cores
- Datacenters with many more processors may still not perform at this level because of the connectivity required

Vibe Coding Competition

- The use of vibe coding will be on the honour system
- For those providing entries to the competition will be two prizes offered:

1. The most useful product
2. The best presentation - stories of the day

Just over three hours left to enter !!!

for the competition - stories of the day, and even abysmal failures will be happily accepted

Entry details to: SuggestionBox@opcug.ca

One Final Example

- Only hours to go before contest entries close
- Develop an “app” using a single command

Please provide a command or a script to list all of the programs that are installed in Windows 10

The fastest and most complete way to list **all installed programs on Windows 10** is with **PowerShell**, because it can read both the 32-bit and 64-bit uninstall registry keys.

Here are the **best commands**, depending on how deep you want to go.

★ Quick answer (recommended)

Lists all installed programs with **Name + Version + Publisher**:

Powershell ^

Copy

```
Get-ItemProperty HKLM:\Software\Microsoft\Windows\CurrentVersion\Uninstall\*,  
Select-Object DisplayName, DisplayVersion, Publisher |  
Sort-Object DisplayName
```

This is the closest equivalent to what "Programs and Features" shows.

<snip>

If you want, I can also format the output as a table, export it to CSV, or filter by publisher (e.g., only Adobe, only Microsoft).

```
PS C:\Users\toaster> Get-ItemProperty HKLM:\Software\Microsoft\Windows\CurrentVersion\Uninstall\*, HKLM:\Software\WOW6432Node\Microsoft\Windows\CurrentVersion\Uninstall\* |
```

```
>> Select-Object DisplayName, DisplayVersion, Publisher |
```

```
>> Sort-Object DisplayName
```

```
>>
```

```
DisplayName
```

```
-----
```

```
7-Zip 26.03 (x64)
```

```
AMD Problem Report Wizard
```

```
AMD Settings
```

```
AMD Settings
```

```
AMD Settings - Branding
```

```
AMD Software
```

```
AMD User Experience Program Installer
```

```
AMD User Experience Program Installer
```

```
Ashampoo Burning Studio FREE
```

```
Audacity 4.0
```

```
Awesome Duplicate Photo Finder v. 1.2
```

```
Bosch VCI Software (CDR) [CDR] - 9.1.2193.34
```

```
Browser for SQL Server 2019
```

Please export the list to the file d:\installed.txt

You can export the full installed-program list directly to **d:\installed.txt** by piping the output to `Out-File`.

Here is the complete script, already modified for your path:

Powershell

Copy

```
$paths = @(
    "HKLM:\Software\Microsoft\Windows\CurrentVersion\Uninstall\*",
    "HKLM:\Software\WOW6432Node\Microsoft\Windows\CurrentVersion\Uninstall\*",
    "HKCU:\Software\Microsoft\Windows\CurrentVersion\Uninstall\*"
)

Get-ItemProperty $paths |
Where-Object { $_.DisplayName } |
Select-Object DisplayName, DisplayVersion, Publisher, InstallLocation |
Sort-Object DisplayName |
Out-File -FilePath "D:\installed.txt" -Encoding UTF8
```

```
PS C:\Users\toaster> $paths = @(
>> "HKLM:\Software\Microsoft\Windows\CurrentVersion\Uninstall\*",
>> "HKLM:\Software\WOW6432Node\Microsoft\Windows\CurrentVersion\Uninstall\*",
>> "HKCU:\Software\Microsoft\Windows\CurrentVersion\Uninstall\*"
>> )
>>
>> Get-ItemProperty $paths |
>> Where-Object { $_.DisplayName } |
>> Select-Object DisplayName, DisplayVersion, Publisher, InstallLocation |
>> Sort-Object DisplayName |
>> Out-File -FilePath "D:\installed.txt" -Encoding UTF8
>>
PS C:\Users\toaster>
