Index to Q&A Sessions

Prior to July 8, 2020, Q&A sessions were held in person following the club's regular monthly meetings or as Zoom video-conferences for which no recordings were made. The highlights of some of the individual topics that were discussed in these sessions are posted in our archives.

More recently, our Q&A sessions have been held weekly as video-conferences. The listings for these sessions include presentation files (PDF), audio recordings (M4A), and the contents of the Chat windows (TXT).

The links below point to yearly web pages containing details of the sessions and links to the related files. Note that the listings for the Q&A sessions for any given year are posted in reverse chronological order.
